WHO I AM

I know that for us to work together on your life balance it is good that we know each other. I am a graduate of Toccoa Falls College with a bachelor's degree in Counseling Skills and a minor in Pastoral Ministries. I also have a master's degree from Liberty University in Counseling. I have been married for 37 years and have two grown children and five grandchildren. I have served for the past 20 years as a Chaplain in the trucking industry where I have had diverse opportunities to counsel with drivers.

Over the past few years I have worked with Mustard Seed and with Miracles Happen Residential Recovery in Toccoa working with both substance and sexual addiction as well as with mental health. I have an office in the Toccoa Post Office building and see clients there.

My Passion

We were created to interact with one another and through that interaction or walking together lives can be changed. God has given us the ability, to not only overcome by reaching out for a helping hand, but also to grow through that experience. As a counselor He has allowed me to learn how to help you so that you can have those life changing moments.

As we work together you can gain awareness about yourself which will motivate you to progress in establishing the balance in life that you desire. This is done by using what has been provided to us, starting with His Word and incorporating proven methods to nurture change.

Areas of Service

Adult, individual and couples counseling available. Addiction both substance and sexual or behavioral addiction. Many struggle with substances but the hold of pornography is taking over lives as well. You can be free of the control that

chemicals or behaviors may have on your life. Whether it be assessment or treatment anger management is offered in the individual setting as well as in group settings. Emotions or lack of controlling our emotions does great damage in our society and families today. Anger management can help gain balance and relational stability. I work with mental health in the areas of anxiety, depression, adult ADHD or ADD. You may struggle with one of these mental concerns and treatment can help to interact with them in a positive manner. As an ordained minister I also offer pastoral counseling which may encompass many life issues. You deserve relief and peace. Treatment may help you reach your goals.
